Redondo Beach, 90278 | (310) 644-1924 | Ruben@cihcsp.com | [www.linkedin.com/in/mrramos86](http://www.linkedin.com/in/mrramos86)

A Trained Professional who is Analytical, Safety Oriented and Detail Oriented. Exceptional ability to perform Quality Work, Multi-task, and Execute projects with competing deadlines within dynamic high-pressure environments. Articulate Communicator and Bilingual in English & Spanish.

---

## AREAS OF EXPERTISE

---

- Industrial Hygiene
- Worker Safety
- Research & Development
- Quality Assurance
- Strong Work Ethic
- Wet Chemistry Techniques
- Good Manufacturing Practice
- Equipment Calibration/Maintenance
- Analytical
- SOP Review
- Project Oversight/Monitoring
- Quality Control
- Inventory Management
- Team Building

---

## PROFESSIONAL EXPERIENCE

---

**INDUSTRIAL HYGIENIST, CAC** | DNA Industrial Hygiene, Redondo Beach, CA 03/2020 to Present  
Responsible for conducting asbestos survey investigations, abatement oversight, air sampling, report writing and providing worker safety trainings.

- DOSH Certified Asbestos Consultant (CAC) | CDPH Lead Sampling Technician | NIOSH 582 Certified
- Possess a working knowledge of industrial hygiene, building related hazardous materials identification, control/abatement and remediation oversight.
- Safely implemented appropriate work practices in accordance with Cal-OSHA, CDPH, SCAQMD/AQMD, DTSC, and EPA requirements.
- Self-Familiarized, in the field, the proper deployment and implementation of OSHA/NIOSH/ASTM air-sampling methods.
- Analyzed samples via Phase Contrast Microscopy.
- Multitasked projects at different job sites while setting priorities and exercising good judgment.
- Produce professional survey reports based on inspection notes and sample data with remedial recommendations as necessary.

**INDUSTRIAL HYGIENIST, CAC** | Forensic Analytical Consulting Services, Rancho Dominguez, CA 12/2017 to 03/2020  
Responsible for conducting asbestos survey investigations, abatement oversight and air sampling.

- DOSH Certified Asbestos Consultant (CAC) | CDPH Lead Sampling Technician | NIOSH 582 Certified
- Possess a working knowledge of industrial hygiene, building related hazardous materials identification, control/abatement and remediation oversight.
- Participated in Fire-site Assessments for the Tubbs Fire Project, Santa Rosa, CA – National Emergency
- Participated in Fire-site Assessments for the Paradise Fire Project, Paradise, CA – National Emergency
- Self-Familiarized, in the field, the proper deployment and implementation of OSHA/NIOSH air-sampling methods.
- Produce professional reports based on inspection notes and sample data.

**ENVIRONMENTAL TECHNICIAN** | A-Tech Consulting, Inc., Santa Ana, California 03/2017 to Present  
Responsible for conducting asbestos survey investigations, abatement oversight, air sampling, and report writing.

- Professionally trained to assess and make report recommendations on the presence of microbial contamination.
