

Thanks, but this is boring take me to the Contract, I'll sign it.

What I do for You

I will develop a program for your company guaranteed to meet the new DOSH ACRU requirements and assist you with the application. There are no additional time charges unless there are current or past OSHA or Cal EPA AQMD APCD Citations pending or enforced against your company. Or delays greater than sixty days on your part. In that event the additional time needed will be billed only on a pre-approved cost basis. You will need to demonstrate the employee training, medical insurance, your own licenses, and your equipment list. I will complete the items on the DOSH questionnaire. I strongly advise you to read and implement all the items in the SOP, you promise to do that when you sign the affirmation. DOSH requires that you provide them with a sample contract and the job estimate sheet that you will use for asbestos work, letterhead, proof of US Citizenship, insurance and other business requirements. I will provide the DOSH ACRU Application document binder, tabs and the contamination prevention, Asbestos SOP, air monitoring, medical monitoring and respirator programs (everything in Part V). I will communicate with the DOSH until your application is complete and approved. The flat rate for that service is \$2,000.00 payable in advance. In the event that you do not have a current illness and Injury Prevention Program we will provide that part of the IIPP program required by DOSH ACRU for an additional fee of \$500.00. You will need to attach the IIPP table of Contents, and copies of the employee discipline program for violating safety & health rules, and the section that outlines job inspections by management and the steps taken when discrepancies are noted. Written records of those management inspections must be maintained. I will return your application package to you with part 5 completed.

For the next year after the date of your DOSH approval you are authorized to use the acru.dnaci.h.com roster organization web site. If you remain a client you will be able to use the site on an annual contract. The site registers your worker roster and helps you keep track of the worker training certificates. You will have your own password and user name, don't change the demo page please.

You will need to complete the DOSH checklist, furnish worker certifications, insurance certificates, proof of US citizenship and other business documents. You will need to sign a statement that says you will use and enforce the SOP. You must complete the above within sixty days, to avoid charges for delays. DOSH Packages not returned within sixty days have a \$250.00 charge because the State Requirements are constantly changing. Packages not returned within ninety days will be considered abandoned. Note If this is a union provided workforce there is no need for the medical monitoring account, however if not you will have to prove that you have a single medical monitoring account with five hundred dollars for each employee on the asbestos worker or supervisor list.

OK I have read everything, I'll Sign the Contract, give it to me.
